**Promoting Import of Safer and Cleaner Used Vehicles in Central Africa**

All countries in the Central Africa sub-region rely on import of used vehicles. The objective of this meeting are:

1. Discuss the status of used vehicles imported into the sub-region.
2. Review the regulations in the sub-region to promote import of cleaner and safer vehicles.
3. Share best practices in the sub-region and Africa on regulating for better quality used vehicles.
4. Learn about the basic components of an inspection and monitoring framework and compliance system to check on the quality of used vehicles imported into the country.
5. Learn about international trends to improve the quality of vehicles in developed countries for safety and emissions.
6. Raise awareness of stakeholders on the benefits of cleaner and safer vehicles.
7. Propose recommendations for the sub-region to regulate the quality of used vehicles imported into the Central Africa sub-region.
